

LTU HEALTHCARE VIOLENCE REDUCTION⁺ CENTER

RESEARCH · INNOVATIVE SOLUTIONS

Helping healthcare providers to effectively reduce violence by providing them with innovative and research-based solutions.

What is the Center

We are the nation's first and only center exclusively aimed at reducing violence in healthcare. We address the rising incidents of violence in U.S. healthcare settings by supplying providers with innovative and research-based solutions to reduce violence, enhance safety and improve patient care.

Why Choose Us

Innovation

Providing innovative solutions to reduce violence that are based on multidisciplinary research conducted by technologically advanced LTU faculty committed to the highest ethical standards.

Collaboration

Partnering with healthcare providers, researchers and industry experts to create comprehensive safety strategies.

Rapid Value Creation

Accelerating the implementation of practical solutions through rapid deployment, testing, evaluation and adoption.

Why it's Important

Impact on Patient Care

- 90% of ED doctors say violence affects patient care
- 85% believe it increases patient anxiety
- Violence leads to longer wait times for patients

Healthcare Worker Safety

- 57 nurses are attacked in the U.S. every day
- 40% of healthcare workers faced violence in the last two years, with 50% seeing an increase
- Many incidents go unreported

Future Challenges

- A shortage of 3.2 million healthcare workers by 2026 could increase violence
- The number of in-home hospital workers, who are at high risk, is expected to grow by 50% in two years

JOIN US

Membership

We invite healthcare providers, insurers, security firms, associations, agencies and municipalities to join our membership.

Members receive innovative, research-based solutions to reduce violence valued at a significant multiplier of their membership fee due to the fact that they are sharing these solutions with other members and reaping the benefits of research funding that LTU receives from other sources.

Members also...

- Shape our direction by serving on our board and influencing key initiatives
- Stay ahead by exclusively accessing multidisciplinary research driven by member needs
- Secure best practices and faculty consultations
- Receive recognition in press and promotions

Sponsorship
