

**HIDDEN FIGURES  
SCHOLAR PROGRAM**  
Lawrence Technological University

# Become a Hidden Figures Scholar™

A fully funded STEM opportunity for motivated high school students

## What Is the Hidden Figures Scholar™ Program?

The Hidden Figures Scholar™ Program at Lawrence Technological University supports high-achieving students who are passionate about science, technology, engineering, and mathematics (STEM). Scholars receive full financial support, mentoring, and hands-on experiences from high school through college graduation.

## Who Should Apply?

- High school students interested in STEM
- Students who enjoy problem-solving, creating, and learning new technologies
- Motivated learners looking for college preparation and support

## What You'll Receive

- Full tuition, housing, meals, and books at LTU
- Early college experience through dual enrollment
- Faculty mentors, tutoring, and paid summer research

## Hands-On STEM Experiences

Students participate in exciting STEM activities like coding, 3D modeling and printing, design challenges, and campus workshops—similar to LTU's UPREP High School STEM Day.
